FLN ASSESSMENT WORKSHEET ENG MEDIUM - 5

Q.1. READING वाचन

The moon shines at night. It looks white and round. Sometimes it looks big, sometimes small. It changes shape every night. The moon does not have its own light. It takes light from the sun. There are many stars around the moon. The moon is very far from us. Astronauts have visited the moon. The moon has no air or water. We can see the moon from Earth. It looks very beautiful. I love watching the moon.

Q.2. DICTATION श्रुतलेखन (Click on link or copy-paste link in your browser)

<https://wp.me/pf0ynA-gW>
